Fresh graduate in Statistics from Institut Teknologi Sepuluh Nopember (ITS) with 1+ year of practical experience in data analytics gained through work experiences, internships, and academic projects. Proficient in Python, R, SQL, Excel, Minitab, and SPSS, with strong ability to transform complex data into actionable insights through data visualization and data modeling. Actively seeking opportunities in data analytics within a growth-oriented organization.

EDUCATION

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia

July 2021 - Sept 2025

Bachelor Degree in Statistics | GPA 3.68/4.00 (Cum Laude)

- English Proficiency: ITS EFL Test - Score: 513/677 (Issued Feb 2024)

PROFESSIONAL EXPERIENCE

Accounting Data Analyst | PT Salam Pacific Indonesia Lines

Oct 2025 - Present

- Developed web applications to automate end to end reconciliation workflows, enabling the accounting team to instantly process disparate financial data and reducing monthly reporting time by 30 plus hours.
- Resolved critical data fragmentation across independent financial systems by building Python pipelines, increasing data validation speed by 2x and enhancing overall accounting accuracy.
- Architected a standardized Master Data framework by developing complex heuristic-based algorithms to parse and classify chaotic procurement records, enabling precise financial granularity.
- Developed a highly precise financial budgeting framework utilizing advanced statistical methods, significantly minimizing budget variance.
- Bridged the gap between technical data structures and business operations by translating complex financial datasets into accessible, actionable insights for cross-functional accounting teams.

Finance Data Analyst Intern | PT Salam Pacific Indonesia Lines

Apr 2025 - Sept 2025

- Developed an optimization algorithm for damaged container-vendor allocation, resulting in improved business efficiency and reduced average repair costs by 10%.
- Developed and maintained interactive dashboards in Power BI, enabling real-time monitoring of key operational metrics and enhancing stakeholder visibility into business performance and trends.

Lecturer & Research Assistant | ITS

Feb 2023 - Dec 2024

- Actively served as a teaching assistant and course mentor for Mathematics I, Calculus II, and Database & Data Warehouse, mentoring 50+ students and improving comprehension of complex concepts.
- Contributed to a joint research project with Statistics ITS and DJPPR Kemenkeu on "Sentiment Analysis on Government Bond Market Movements" involving data collection and NLP-based analysis.

ORGANIZATIONAL EXPERIENCE

Vice Chairman | Professional Statistics (PSt), HIMASTA - ITS

Mar 2024 - Feb 2025

- Partnered with the Chairman to lead and oversee all work programs and agendas executed by 50 members.
- Played a key role in developing the concept for a collaboration program with the Sidoarjo Regency Office of Cooperatives, which successfully generated a new revenue stream for the organization.
- Resolved inter-divisional communication gaps through monthly alignment meetings.

Head of CS Data Analytics Competition | Pekan Raya Statistika 2023

Nov 2022 - Oct 2023

- Led a team of 9 in the end-to-end project management for the development of materials for an international data analytics competition.
- Directed project strategy, successfully established data partnerships through negotiation, and served as the main communication liaison with external stakeholders.

ACHIEVEMENTS

- 1st Place Winner, Dataquest 3.0 part of Airnology 3.0
- 3rd Place Winner, ACTION by Data Science UNESA
- Distinction Graduate, Bangkit Academy 2024 (Machine Learning Cohort)
- Top 50 Capstone Project, Bangkit Academy (out of 588 teams)
- Semifinalist, National Statistics Challenge UB 2023
- Semifinalist, National Statistics Challenge UB 2022

SKILL SUMMARY

- Interpersonal & Analytical: Team Management, Stakeholder Communication, Problem-Solving, Critical Thinking, Data-Driven Decision Making.
- Core Skills: Data Visualization & Storytelling, Forecasting, Machine Learning (dev id Machine Learning with Tensor Flow Cert), Statistical Modeling, NLP, Predictive Analytics, Database Management, Basic Accounting.
- Technical: Microsoft Office, Python, R, SQL, Power BI, Tableau, Looker Studio, Git.
